COSN the coin to Trust promotes access to your money anywhere, anytime, and anyplace.

History & Background

In order to fully understand COSN and its revolutionary place in the new digital financial landscape, it's important to first understand the critical role financial institutions and currencies have played in establishing imbalances of power and controlling who has access to their omnipotent, centralized services.

As far back as the Romans, appalling percentages of society's currency and exchange have been controlled by central banks, making sure they maintained strict control over the masses and continued to profit off their dependence. Today, those tactics are no longer working as effectively as they once were; influence and power have spread to individuals, ultimately accelerated by technology. The untapped sectors of humanity whom the institutions have failed or deliberately excluded can now contribute and engage in a vibrant and dynamic financial and technological ecosystem.

Today, we are at the genesis of a new monetary system synthesized through bits of an electronically interconnected world where algebraic formulae will reign over the political capriciousness of central bankers. This genesis began with Bitcoin and has continued with new innovations such as Ethereum. Despite the tribulations of these early pioneers and the sometimes gloomy future ascribed to these nascent crypto initiatives, what is clear is that their underlying blockchain technology and the public sentiment for these systems of value and transacting are here to stay.

Crypto Spoon Trading Limited pairs a new dawn for digital with the fragments of yesteryear's reliable and tangible assets, in order to deliver realistic and relevant solutions in the wake of crumbling archaic economies.

Enter the next iteration of transactional evolution, COSN. COSN has been designed to contribute to this new world by providing a new generation of universal currency that will base its value on not only the underlining technology network of users, but also on a pool of real value, in the form of real assets (including stocks, bonds, precious metals, real estate) and a business transactional ecosystem that will support its growth, fundamental value, and provide its holders with added value not provided yet by any other coin in the market today.

The Value Proposition

The Foundation will generate annual audited financial reports in compliance with UK , federal regulations.

Crypto Spoon Trading Limited the company behind the COSN digital currency intends to establish a diversified asset ecosystem that promote value and liquidity for its coin users on a global scope.

COSN, the best asset supported cryptocurrency.

ACTIVE COSN SUPPORT

The Board of Directors of the Trust has the ability and authority to repurchase COSN from the open market in support of its value, consistent with its irrevocable mandate to support the value of the currency. They will be responsible for Risk Governance (by an executive director) and ensuring the established Investment Guiding Principles.

Crypto Currency Exchange FIAT to Digital and Vice Versa

The goal is for COSN to have a comfortable global presence and recognition, with active consumers all around the world storing funds on a digital banking platform, sending and receiving currency anytime, anywhere and anyplace.

The next immediate need will be a cryptocurrency exchange. This exchange will allow for the trade and fluid conversion between digital currencies and/or fiat, and will obviously be a useful accessory to COSN main line of services. An state-of-the-art global digital banking platform will be the technological foundation for the exchange, giving the same seamless experience COSN users will be used to, for citizens of countries which require custom solutions.

COSN holders will also can purchase/sell/transfer cryptocurrencies through this platform with preferential fees and promotions as it is multicurrency, multilanguage, hot and cold wallet, integrated to external exchange partners for crypto liquidity. Initially COSN exchange will work with COSN, USD, Bitcoin and Ethereum, and later it is expected to start trading ERC20 tokens and other cryptocurrencies. COSN holders can get the COSN digitized assets directly in the exchange platform. KYC/AML required for all customers.

In addition, COSN will be tradeable in various of the top 100 exchanges. COSN has been pre-approved already in the following exchanges Capitalika, HitBTC, P2pb2b, Bibox, Latoken, Mercato x, Cryptopia, C-Cex and Changelly. Final exchanges selection and registrations will be announced through social media channels, press releases, and the COSN web page.

- Customers will have access to a state-of-the-art security biometric system to secure access to their wallets.

Marketplace

COSN will allow its holders to sell, buy, or subscribe products, services, and soft commodities with the future COSN marketplace. As well, COSN will be used as a mode of transaction or payment outside the COSN platform.

- COSN will work to organize and fully developed the COSN marketplace.
- COSN will be able to provide a full range of financial products and services
- COSN marketplace will be fully mobile and integrated to the needs of COSN users.

Money Transfer

COSN financial and business ecosystem will have access to traditional global money movement mechanisms through established affiliations with existing traditional banks. Another future endeavor will be establishing a money transfer service, most likely via strategic agreements with already secure and compliant partners. COSN team is well connected in this space and have already begun laying the groundwork for those relationships. The transfer service's lifeblood will be cryptocurrency, keeping fees low, speeds high. Predominantly encouraging the use of COSN, it will offer seamless foreign currency exchanges with impressive agility – as a global digital currency, there are no foreign exchange currency conversion fees.

Technological and Blockchain Innovation

Blockchain

COSN is based on Ethereum decentralized blockchain. Ethereum is the blockchain technology upon which the COSN suite of cryptocurrencies is built. COSN currency can be sent, spent, stored, or traded through the blockchain. Ethereum (ETH) is one of the most popular blockchain platforms in existence. Ethereum created smart contracts, houses ERC-20 tokens like COSN, and provides a framework for building decentralized applications.

Digital Global Platform

The digital technology platform of the branchless international financial entity strategic alliance will be provided by Technisys, a leading provider of banking technology. Technisys is recognized as one of the two principal players globally in the digital banking services industry. The digital banking platform will prioritize affordability and accessibility, security, compliance, and reliability; and poised to help COSN and other crypto currency users in the smartest mix of revolutionary and familiar business banking and commerce applications. COSN's strategic development objective here is to fully integrated the scope of the foundation and within a comprehensive business ecosystem that leverage COSN tokens for marketplace and platform uses promoting mass adoption of COSN. COSN holders will have access to the services on a preferential and almost free basis.

Management Team

A remarkable success requires a long-term vision as well as leading a seasoned management team. That is the reason we decided to work with the most experienced and talented managers in technology, marketing, finance, investment and entrepreneurship in the business field. Our COSN currency management team has extensive experience managing and consulting with start-ups and national, Fortune 500 corporations as well as non-profit organizations. Collectively, the team has more than 40 years of proven experience in the corporate and entrepreneurial fields supported by very competent and experienced crypto industry consultants and third-party strategic business partners, all under the digital currency vision of the Board of Advisors of Crypto Spoon Trading Limited and its group of strategic partners.

Why COSN?

Crypto Spoon Trading Limited management team, the Advisory Board, and associates have been preparing, researching and developing the various components and strategies behind the COSN cryptocurrency design and launch. COSN was created under the BOA directive to create a cryptocurrency, the right digital platform, and a business ecosystem that will not only give users a global crypto coin but also help secure such with investment with physical assets and daily functionality based on a full service one-stop business ecosystem. COSN, is a unique new asset backed cryptocurrency combining blockchain technology with a diversified range of physical assets. COSN digital currency end result is the establishment of a diversified asset ecosystem that promote value and liquidity for its coin users on a global scope. The Board demanded a cryptocurrency that can guarantee to their holders access to their money anywhere and anytime addressing this way the most critical barriers to cryptocurrency mass adoption.

Accordingly to the Board mandate, COSN's COSN funds will go largely towards the continue capitalization

of the TRUST, the development of the coin business ecosystem, and the underwriting for the universality of COSN. The COSN business ecosystem is founded upon a Trust professionally and independently managed with a portfolio of diverse asset types, a digital banking platform, and much more all adding premium to the COSN value because of its usage and on-going market demand for daily life transactions. The intrinsic value of COSN will stand the test of time as it will always remain an asset backed digital currency. COSN will invest 70% of its COSN funds back into fund generating assets to retain the intrinsic value for its coin. Crypto Spoon Trading Limited is now ready to offer its COSN utility currency. Currently, COSN currency is in existence in the Ethereum blockchain, to be available to the public in a global COSN, excluding citizens and residents of the USA, UK, Canada, and Singapore. Further details of the COSN and the potential benefits of COSN currency ownership are provided in this White Paper. The terms and provisions of COSN currency sale are outlined in this White Paper.

Other proceeds from the COSN sale include the funding of Management, Operations, Technology Development, Marketing and Promotion and for general innovation purposes, including funds for the Global Legacy and Inclusion Foundation. The funds raised in the Utility Token Offering (COSN) will enable Crypto Spoon Trading Limited to continue its technological and ecosystem development activities including building and developing COSN currency and the ecosystem for our apps as well as running marketing campaigns to promote mass adoption of the coin so that the COSN

currency brand-awareness and reputation would be successfully built and develop and adopted. The use of the funds will be auditable thanks to the transparency of smart contracts in the blockchain. Annual reports will be produced and published in compliance with COSN's corporate policies and the regulatory issues governing Trust management and operations and governing crypto currency regulations. The distribution of the funds raised in the initial offer will be as shown in the graph below.

COSN Currency Price

We plan to reward users for early adoption of COSN, this will enhance the future value of COSN and foster ecosystem growth opportunities for the first purchasers.

Initial COSN offering price is set to USD \$0.0141 per COSN. During the Pre-sale, several rounds (tiers) will be organized with different bonuses accordingly to the payment methods you use to make the transactions in each tier. COSN currency reserves the right to negotiate special deals and discounts for individuals and/or brokers purchasing large COSN amounts. The COSN Pre-sale will run for a minimum of 50 Days or until the soft cap of 10 Million has been sold, as it is the minimum possible amount raised to successfully end our COSN campaign. Thirty days after the COSN ends, COSNs will be available in exchanges at market price. To see the latest information about COSN visit our website or contact us at cryptospoon.io.

Purchase Qualifications

In addition to submitting documentation to confirm their status as "accredited investors" or non- "U.K. Persons", all potential purchasers of the Coin will need to complete requisite know your-customer and anti-money laundering procedures to execute a purchase. Once the purchase is officially confirmed, COSN coin will be delivered to a wallet address provided by the customer or will be made available by COSN for the client

Selling Restrictions

No action may be taken in any jurisdiction that would not permit an Utility Token Offering or the possession, circulation or distribution of this White Paper or in any jurisdiction where action for that purpose is required. Accordingly, the COSN digital currency may not be offered or sold, directly or indirectly, and neither this White Paper nor any other offering material or advertisements in connection with the coins may be distributed or published in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction. Please, refer to our COSN disclaimer.

Risks Related to Blockchain Technology

As government agencies take greater interest in the digital currency industry, new regulations or policies may materially affect the industry. The effect of any future regulatory change is impossible to predict, but such change could be substantial and materially adverse to the adoption and value of our coin. If you are in any doubt about this White Paper, you should consult your broker, bank manager, solicitor, accountant, or another professional adviser.

CONFIDENTIALITY

Transfers made by users are recorded in the system and encrypted. User wallets are also encrypted on the platform and their association with user profiles is minimized as much as possible. Only the developers of the COSN currency platform can connect wallets to platform users (except for creators, of course). This may be necessary to resolve disputes or answer questions from users if they occur.

To ensure the safety of COSN customers, all personal user data, including passwords, emails, and wallet IDs, is encrypted. This protects COSN currency users from hacking or information leaks. Even in the worst-case

scenario, user data, passwords, and wallets will remain safe, since no access to them or money transfers from them is possible.

COSN will not knowingly share personal information with third parties, except as permitted and accepted by law. A third-party affiliate or company is a company or organization not controlled by COSN, Inc., such as an intermediate bank or a prepaid card services provider. All information provided is under an agreement that it is strictly confidential and may only be used for providing the service. Please, refer to our Private Policy on our web page.

Legal Governance and Compliance

We have secured legal and compliance expertise to ensure that COSN currency meets the requirements of an Utility Token Offering (COSN). According to the professional opinion of our legal advisors, based on the Howey Test our COSN currency COSN should not be deemed as securities and do not need to be registered as a security. The COSN Token is not an investment in any way and is not a security since does not have the legal qualification as a security. The possession or ownership of the COSN token does not grant any title, right, or interest in any company, enterprise, or undertaking, and does not grant the owner a share of any revenue or profits outside of the capital gains (or losses) they might realize in trading on the exchanges or community.

Any updates regarding this and other issues impacting our COSN currency program/platform will be found on our web page and future electronic newsletter.

Auditing

COSN intends to perform audits of reserves and the corporation operations on an annual basis which will be performed by well-known international independent auditing corporations. To guarantee to COSN's holders transparency, audits reports will be published annually on our web page for general reference.

AML/KYC

COSN will accomplish all AML (Anti-Money Laundering), KYC (Know Your Customer and MSB (Money Service Business) regulations and requirements. We work hard to identify all our customers. We reserve the right to require users to scan and upload photo ID and other documents to verify information via third-party clients APIs or directly through our own COSN people. In addition, we will develop internal policies, procedures, and controls, designate a compliance officer and provide an ongoing employee training program.
